

## APPLICATIONS

Whether you need stronger pads or pads with more flexibility, PadPak Guardian can produce both. That makes it well-suited to almost any packaging environment, from automotive to e-commerce.

Pads can be used to cushion both light and heavy items, from glass vases through to electrical motors, using a single pad to cushion sides and corners or rolling up packaging into a coil.

## SPECIFICATIONS

### Converter

	Floorstand	Tablestand
Dimensions (w x d x h)	61 x 110 x 163 cm	61 x 87 x 139 cm
Weight	93 kg	89 kg
Power	1050 W	1050 W
Voltage	100-240 VAC	100-240 VAC

### Paper packs

	90 Ecoline	90 Virgin	70/70 Rec/Vir	70/75 Rec/Eco
Length	300 m	300 m	180 m	180 m
Width	38 cm	38 cm	38 cm	38 cm
Paper basis weight	90 g	90 g	70/70 g	70/75 g
Pack weight	21 kg	21 kg	20 kg	21 kg

### Paper pallet

	90 Ecoline	90 Virgin	70/70 Rec/Vir	70/75 Rec/Eco
Pallet load	24 packs	24 packs	24 packs	24 packs
Pallet dimensions (w x d x h)	120 x 80 x 110 cm			
Pallet weight	514 kg	514 kg	490 kg	514 kg

# PadPak Guardian

Packaging  
that will grow  
your business

Ranpak®

# PadPak® Guardian™ is the sustainable, compact, fast and simple answer to many of your protective packaging needs

Cushioning solutions are available for working at raised height or lower down and for either standalone use or next to a working table, using a floorstand or tablestand converter.

The result is a cushioning resource that boosts efficiency in virtually any working environment.

## KEY FEATURES

### Compact

A compact footprint, with reduced size and weight, means that PadPak Guardian uses your warehouse space more efficiently. It fits into cramped lines where space is tight, and produces both 1-ply and 2-ply paper pads.

### Ergonomic

A detachable 7" touchscreen, easy maneuverability and adjustable working angles make the converter easy and quick to operate and compact stacks of paper are easy to handle.

### Modular configuration

Six individual modules can be easily removed, assembled or replaced. This ensures easier and cost-effective servicing, with less converter downtime.

### Sustainable

You can choose from a broad range of papers, from virgin to recycled paper, and with both 1-ply and 2-ply options. An effective and sustainable alternative to plastics.

## YOUR BENEFITS

### Excellent product protection

Reliable protection for your products is a must. Padpak Guardian provides a wide range of different paper types with proven high cushioning values, protecting your products properly whatever the application.

### Reduced packaging operation costs

An Enhanced Loading System means that paper can be loaded in 20 to 30 seconds, with major gains in production time. If a paper jam occurs, your operator can resolve it with a single button, for higher production throughput and less paper waste. To optimize production, you can access three different speed settings, up to over 1.2m of pads per second. With five operation modes and low paper shrinkage, Padpak Guardian gives you more efficient operations in many different circumstances.

### Sustainable materials

Ranpak is leading the way for sustainable packaging across the globe. Our in-the-box packaging solutions can support your growth, protect the environment, and keep your customers happy.

Sustainable, cost-effective, and versatile packaging helps your business to thrive while showing your commitment to the planet. PadPak Guardian is the sustainable, compact, fast and ergonomic answer to many of your packaging needs.

## COMPACTNESS

Over the years Ranpak has developed converters of different sizes for various applications.

PadPak Guardian simplifies everything, combining multiple benefits in one converter while reducing physical footprint significantly at the same time. The compact footprint of PadPak Guardian means it can be placed in tight corners for better production flow and use of space.

Converters can be moved easily by operators when required, and quickly adjusted to the height required for individual applications. The result is an optimized packaging environment and more efficient use of your premises.
